Glomac started operation in a very humble manner gathering workers and seeking for contracts in lagos. I happen to be one of the first employee in the office of Glomac. I really enjoyed working with this company. Though started very young, I was trained by the Directors and started working in earnest. I worked for 2 years as a customer representative. In this, I learned so much how to satisfy Glomac customers and further equipped guards with customer service training and skills. Answered calls and also dealt with difficult situation in property .
